Acknowledgments.

That the Organ is rapidly gaining in the favor of the public, and that it is destined to work out a mighty change in the minds of the people, is very evident from the fact of its great increase in circulation. Our subscription numbers nearly four thousand, And at no time during the past month, have we been able to supply the demand. This is a compliment to the Organ-an acknowledgment of its superior merit as an advoeste of the cause—that will increase our energies in the advocacy of the good cause.

Two weeks have passed since we published our new list of premiums. We have received letters from a large number of our friends who intend to compete for them .-In every case, the premiums are acknowledged to be most liberal. We shall anticipate a large access to our list between this time and July next. We hope all who intend to compete for the premiums, will send in the names as fast as they are obtained, that the paper may be doing all the good it can. When a club is obtained, Agents can send single names where they please at \$1

Bro. P. Keran, Bourneville, Ross co., O., \$6 for Organ. The brother does not give a very good account of the condition of the "Sons" in his village. We are extremely sorry that such is the case. He says : "You will see by the few subscribers I send you, that the cause of Temperance is on the back ground here. We have a good Hall here, and the time has been, when it was almost filled with Sons. But, alas! that time has past; we can scarcely open our meetings any more. The doggeries have taken some, others have wearied (perhaps on account of their back dues not being paid up) whilst a few are trying to hold together the aimost shattered band.

Bro. Herman Canfield, Medina, O., \$1 for Organ. The non-acknowledgment of the \$30, was an oversight in us, which we very cheerfully correct. It is due to the members of Anchor Division to say, that they contributed their share to the club, and are just as anxious that temperance paper should prosper as the members of any other Division. Our list does not agree with the one sent, only in the number, and we are at a loss how to correct it. In relation to the prosperity of the cause, Bro. C. says :-"Our Division is highly prosperous and increasing in members and in practical temperance influence. Two or three new Divisions will probably be opened in this county during the Spring. The charter for one is now in the hands of the Deputy."

Rest assured we are going ahead in Frank lin county. We have now Auxiliary Alliences as follows: one in Norwich township; two in Perry township; one in Mifflin township; one in Reynoldsburg, Truro township, and preparations in train for five or aix more in other townships. Our brethren are wide awake, and make any sacrifice to forward the work-storms and mud roads are slight hindrances. Scarcely a night passes without meetings being held in some of the surrounding townships, Franklin county led the van in the formation of a Temperance Alliance, and she means to be the banner county, intending to have a greater proportion of her legal voters upon the Alliance Pledge than any other county in the State. What county accepts the challenge."

Bro. M. M. Edwards, City; 16 names obtained at the meeting at Freeman Street Church, on Tuesday evening last; I from Lockland and 19 from city-in all 36 names in one week. Bro. Edwards has our thanks for his indefatigable exertions for the Organ.
